To: All Field Sales Managers

As you all know, last year we agreed to sweeping changes in the way we produce, sell and market our products. We did this in an effort to end decades of controversy over tobacco and provide us with a more predictable future in which to conduct our business. Our goal was to create a "reasonable" external environment in order to re-focus on our number one priority -- selling cigarettes. However, what started out as a good-faith effort, has fallen victim to Washington-politics. Now, we find that tax-and-spend Washington has decided to ignore the real achievements of the Settlement and has, instead, decided to pursue a course that could ultimately destroy the tobacco business in this country. We cannot let them be successful.

This week we began a massive effort to mobilize our customer base to oppose new taxes on tobacco. An "Activation Call to Action Packet" was sent to the top 200 customers. In the packet and the accompanying letter from Andy Schindler we ask our customers to write and/or call their congressional representative and express opposition to the current legislation being considered.

Attached are materials similar to those already sent to top customers. It is critical that you contact your customers immediately and request their help, and use these materials with all chains, distributors and independents. Division Managers (DM) and Sales Reps. (SR) are responsible for contacting independent accounts. See Exhibit I for specific next steps. Contact your Regional Operating Manager (ROM) to provide you with the copies of materials required to complete the task.

In addition, attached is a list of customers who received the packet from A. J. Schindler. Please review the list and identify your customers. Call these customers and make sure they received the packet, understand the seriousness of the situation, and provide any assistance you can in mobilizing their organization in opposition to the tax increase.

Getting our customers to oppose this Washington power-grab is essential. Let them know that Congress is considering a half a trillion dollar tax increase to fund 17 new government entities. If the Washington politicians have their way, a pack of cigarettes will end up being at least $5! Can you imagine the black market that will develop? We must do everything we can to stop this legislation.

The time to act is now. If you have any questions please contact your ROM.

Sincerely,

Jim Maguire
Senior Vice President - Sales
